Grand Giro adds to the Giro Soft modular seating line, featuring upholstery that extends all the way to the base, unifying each module and creating a stronger visual impact and continuity. This enveloping fabric design gives Grand Giro a warmer, more home-like feel, without compromising on sophistication or flexibility. The system retains the original's curved, organic architecture, based on open and closed 45° and 90° modules that allow for fluid configurations. Additionally, this model enables the secure and discreet integration of connectivity.
